

## Installation, Maintenance and Warranty Data

RESILIENT TILE ACCESSORIES

### **Mercer Mouldings – Transitions, Joiners Reducers and Corner Guards**

#### **Installation**

Generally Burke Transition Mouldings are glued, nailed, tacked or stapled into place. There are many products in this line and they all have various ways they can be installed. Each application may have different installation requirements, depending on that particular job situation. If you have any general or specific installation questions please contact your Burke Flooring representative.

#### **Maintenance**

Mild soap and water should readily clean Burke Transitional Mouldings. A polish or wax is not necessary. However, a liquid floor polish can be used if a glossy shine or extra protection is desired. Wax or coatings from adjacent polished surfaces will not harm Burke Transitional Mouldings.

#### **Warranty** • BurkeMercer Mouldings: 2 Year Limited
